# Phases of a Treatment with Implants!

To be able to assess the costs associated with dental implants, it is first necessary to know the routine clinical procedure."

**A** Oral rehabilitation with implants is carried out in 2 very well-defined phases.

Dr. José Miguel Gómez Díez  
Clinical Coordinator

**B**

A 1<sup>st</sup> phase or surgical phase, in which the implants are placed in the jaw. Then, it is necessary to wait (4-5 months) for them to be fixed in the bone.

**C**

A 2<sup>nd</sup> phase or prosthetic phase, in which the implants are uncovered and the final prosthesis or restoration is made.

Dr. José Miguel Gómez Díez  
Clinical Coordinator

A different Specialist must intervene in each phase.

Each of them sets professional fees for their work.

The Surgeon for the supply and surgical placement of the implant.

The Prosthodontist for the supply of devices and manufacture of the prosthesis.

## PHILOSOPHY

At DENTAL VIP we only use dental implants from the renowned trademarks MIS Dental Implants and ZimVie Inc. For your safety and ours, we **DO NOT work with Clone, Generic or Low - End Implants.**

# Dental Implants /

(SURGICAL PHASE)

**MIS**

**Mid-Range**  
Implant

American Dollars

**\$650<sup>00</sup>\***

- \* The suggested value includes the supply and surgical placement of the implant.
- \* Does not include prosthetics or restoration.

**ZimVie**

**High-End**  
Implant

American Dollars

**\$890<sup>00</sup>\***

- \* The suggested value includes the supply and surgical placement of the implant.
- \* Does not include prosthetics or restoration.

## ZimVie

Currently, there are more than 500 commercial brands of dental implants worldwide, and surprisingly, only very few meet the necessary requirements capable of guaranteeing a minimum acceptable of quality of care. From high-end American, Swiss and German implants, to Asian implants of unknown origin and ridiculous prices.

Our brand of preference **Zimmer Biomet (currently patented as ZimVie)** is one of the top 5 on the planet. Do a simple Google search with the phrase "**best dental implant brands**" and see for yourself!
